What is an outdoor Telecom cabinet enclosure with air conditioner?

The outdoor telecom cabinet enclosure with air conditioner realizes heat absorption and cooling through compression refrigeration, and transfers the heat emitted by the equipment in the cabinet to the outside of the cabinet in a closed environment of the cabinet. Our outdoor Telecom Enclosures are widely used in the area of:

What is a multitenant outdoor cabinet?

Vikinor's multitenant outdoor cabinets enable multiple operators or equipment types to share the same protected infrastructure. Segmented internal layouts and isolated compartments ensure electrical and thermal separation, making them ideal for shared telecom or co-location sites. Get technical specifications and pricing tailored to your project.

What is a telecommunication enclosure?

A telecommunication enclosure is a protective cabinet or box designed to house and safeguard telecommunications equipment such as routers, switches, and cabling systems.

What is a climated controlled outdoor equipment cabinet?

Our floor or pad mount climated controlled outdoor equipment cabinets are ideally suited for Macro Cell Site and Centralized Radio Access Network (CRAN) applications. AZE has developed a line of solutions to assist these deployments with rugged and compact enclosures for today's dynamic cell site needs.
