What products does KDST offer?

KDST's product line includes outdoor telecom cabinets, Energy Cabinets, base station cooling equipment, Cabinet Air Conditioner, electrical enclosures and System Integration. Delivering robust enclosures to ensure stable operation of base stations and network equipment.

What is an outdoor telecom enclosure?

The outdoor telecom enclosures, which are also referred to as telecommunications cabinets, are fully enclosed cabinets that help protect electrical cabling and other equipment from potentially damaging environments. Such damage can be caused by dust, rain, ice, and external heat. What do you need to know about outdoor telecom enclosures?

Can telecommunications equipment be terminated outdoors?

One of the biggest challenges of terminating your telecommunications equipment outdoors is finding outdoor enclosures that will be able to properly withstand the elements. Temperature, moisture, ice, shock hazards, and UV damage are all potential dangers to consider before purchasing an outdoor enclosure or cabinet.

What equipment is used in a telecom system?

Equipment Mounting: Shelves, racks, and other mounting hardware are added to hold telecom equipment such as routers, servers, and switches. Cooling Equipment: Depending on the design, air conditioning or passive cooling mechanisms like heat sinks or fans are installed. 6. Testing and Quality Control
