The new solar plant will benefit more than 2 million users across the national power grid and is expected to reduce approximately 20,000 tons of CO2 emissions per year, supporting a ...

AES" Meanguera del Golfo solar plant--the first of its kind in Latin America--relies on enhanced solar-plus-battery storage technology to deliver uninterrupted, carbon-free electricity to ...

The Santa Marta Solar Plant, boasting an installed capacity of 10 MW, was inaugurated in January 2025. This plant, a collaborative effort between Enel Green Power ...

The Bósforo solar project, a key initiative from AES El Salvador, is already operating at full capacity with 10 solar plants strategically located across the country.

AES" Meanguera del Golfo solar plant--the first of its kind in Latin America--relies on enhanced solar-plus-battery storage technology to deliver uninterrupted, carbon-free electricity to isolated island ...

The power station, with a 300MW system, is claimed to be the largest compressed air energy storage power station in the world, with highest efficiency and lowest unit cost as well. [pdf]

Bósforo, a project executed by AES El Salvador, consists of 10 solar plants of 10 MW each, generating a total of 100 MW of solar energy for El Salvador. The total investment amounts to \$160 million.

Australian solar pioneer 5B has been appointed as the technology provider for a 10.1MWp solar system that will form part of a 21.4MWp Full EPC Turnkey & PPA Project that ...
