What are outdoor cabinets used for?

Outdoor cabinet usage is increasing through the roll out of fibre, 5G and Edge computing environments. Our outdoor cabinets can be used for street and roadside applications as telecoms and data cabinets and are designed to house and protect data, telecoms and IT systems from weather extremes. Manufacturing features and options include:

What materials are used in telecommunication enclosures?

A choice of aluminium or steel panels or GRP with ply core. Our enclosures comply with industry standards and regulations,ensuring that telecommunication equipment housed within meets safety and performance requirements. We manufacture our outdoor telecoms street enclosures to IP55 specification using galvanised steel.

Smart OTP Outdoor Telecom Power System is used for on-grid, off-grid, and hybrid operation scenarios and available in 48VDC 50A, 100A, 200A, 300A, 400A and 600A models.
