How will the belt and Road Initiative Impact energy trade?

However, although progress has been made in studying energy trade networks along the Belt and Road, some issues still need further investigation. As the influence of the "Belt and Road" Initiative increases, energy trade among member countries will directly impact the energy security of the entire region and even global sustainable development.

Why did China propose the Belt & Road Initiative?

Problems and challenges continue to threaten the progress of human civilization. In response to a changing global situation and the expectations of the international community, and with the future and overall interests of humanity in mind, China proposed the Belt and Road Initiative (BRI).

What are the economic objectives of the Belt & Road Initiative?

Another pivotal economic objective of the Belt and Road Initiative is the promotion of international trade and investments. This ambition translates into the reduction of trade barriers, the active encouragement of investments, and the augmentation of economic collaboration among participating countries.

Could the Belt & Road Initiative undermine regional governance?

China, a major global economic power in recent years, spearheads the Belt and Road Initiative. This has raised concerns that the BRI could undermine the established regional governance frameworks, such as the Association of Southeast Asian Nations (ASEAN) and the Eurasian Economic Union (EEU) (Gong, 2019).
