How much does a data centre cost in ASEAN?

ASEAN countries offer 20% lower costs for data centre construction and operation than the global average at less than USD 9/megawatt (MW), with Philippines having the lowest cost at USD 4.6/MW and Japan the highest at USD 12.7/MW.

Is ASEAN a hotspot for data center investment?

ASEAN is rapidly emerging as a global hotspot for data center investment. While traditional hubs like Singapore face constraints, Malaysia, Indonesia, Vietnam and Thailand are seeing unprecedented investment inflows from major cloud providers, hyperscalers and industrial investors.

How are ASEAN governments promoting data center investment?

Governments across ASEAN - especially Indonesia, Malaysia, and Vietnam - are actively incentivizing data center investment. They are offering tax breaks, investment-friendly policies, and regulatory clarity to attract global players.

Will ASEAN's data center capacity increase by 2024?

The surge in demand puts a high pressure on ASEAN's digital infrastructure in data center capacity to keep pace. By 2024, the capacity of data centers in Southeast Asia is planned to increase by ~1.5X within SEA (vs 13% increase expected across APAC) . 2.
