What is BST energy storage?

BST specializes in providing one-stop customized energy storage services. We utilize advanced lithium iron phosphate battery technology and our proprietary BST Cloud platform to meet the diverse needs of diverse households. All products utilize durable lithium iron phosphate batteries and come with a minimum 10-year warranty.

What is Siemens Energy battery energy storage system (BESS)?

Siemens Energy fully integrated Battery Energy Storage System(BESS) combines advanced components like battery systems, inverters, transformers, and medium voltage switchgear with seamless electrical and I&C integration for precise control and management.

What is a Vertiv EnergyCore Battery Cabinet?

The Vertiv(TM) EnergyCore Lithium-Ion Battery Cabinet provides high power density in a compact design. It can deliver up to 222.2 kWb (Li7) or 263 kWb (Li5) in 600 mm wide cabinet. It is designed to operate at higher temperatures of up to 30C and optimized for either 5- or 7-minute runtime.

What makes BST a great energy storage company?

As a rapidly growing energy storage company, BST is committed to innovation, the integration of cutting-edge technology, and a global perspective, striving for excellence in all its operations. All our products have obtained the necessary industry certifications, underscoring our commitment to quality, safety, and reliability.

After-sales service in energy storage technology includes a comprehensive suite of activities aimed at ensuring ongoing customer satisfaction post-installation.
