The Base Station Energy Cabinet is a fully enclosed, weather-resistant telecom energy cabinet designed to provide reliable power distribution and battery backup for outdoor communication networks.

With a 200.7kWh capacity, it integrates BMS, inverter, and MPPT for seamless on/off-grid transitions, enabling flexible and efficient energy dispatching. Equipped with dual fire suppression systems and ...

Seamlessly integrate with existing solar inverters, generators, or grid connections without system overhauls. Enable peak shaving, time-of-use arbitrage, or ...

Weatherproof outdoor inverter cabinet for telecom applications. Supports solar input and backup power for stable operation in off-grid or hybrid systems.

Discover the Pole-Type Base Station Cabinet with integrated solar, wind energy, and lithium batteries. Designed for seamless installation and remote monitoring, this energy-efficient cabinet ensures ...

GS energy storage Inverter outdoor cabinet designed for areas without electricity and remote rural areas. Features C4M anti-corrosion and IP54 protection, a split design compatible with lithium and ...

Wall-mounted or floor-standing options for versatile energy storage. Indoor and outdoor cabinets tailored for your energy needs. Designed to withstand extreme conditions and ensure continuous operation. ...

Seamlessly integrate with existing solar inverters, generators, or grid connections without system overhauls. Enable peak shaving, time-of-use arbitrage, or backup power.
