Turkey-based developer and IPP Fortis Energy has acquired a solar and battery energy storage system (BESS) project in Serbia. The company plans to begin construction at the project, in ...

The city's new 140MW photovoltaic + storage project isn't just another solar farm - it's Serbia's first large-scale marriage of solar generation with lithium-ion battery storage. Think of it as a giant power bank ...

There are a thousand and one things to see in Belgrade, but these are the cream of the crop in the Serbian capital. Get that bucket list to hand.

Belgrade is one of the oldest continuously inhabited cities in Europe. One of the most important prehistoric cultures of Europe, the Vinca culture, evolved within the Belgrade area in the 6th ...

A novel energy storage system, TWEST (Travelling Wave Energy Storage Technology) -simple, compact and self-contained - is at the heart of the E2S power plant conversion concept.

Summary: The recent energy storage contract signed by Belgrade's photovoltaic power initiative marks a pivotal step in addressing solar intermittency. This article explores the project's implications, global ...

Belgrade is surrounded by a wealth of historical sites, natural wonders, and cultural attractions waiting to be explored. Consider visiting Novi Sad, the Iron Gates, Golubac, Viminacium, and Smederevo for ...

Belgrade, city, capital of Serbia. It lies at the confluence of the Danube and Sava rivers in the north-central part of the country. It is located at the convergence of three historically important ...
