Why is Buenos Aires investing \$540 million in energy storage?

The \$540 million investment in energy storage isn't just about keeping the lights on in Buenos Aires. It's a strategic bet on a more flexible, reliable, and sustainable energy future for Argentina - and potentially, a blueprint for the entire region. What role will energy storage play in your country's energy transition?

Is Buenos Aires a model for grid modernization in Latin America?

Over 667 megawatts of energy storage capacity are headed for the Buenos Aires Metropolitan Area (AMBA), representing an investment exceeding half a billion US dollars. This isn't just about avoiding summer blackouts; it's a pivotal moment for Argentina's energy future, and a potential model for grid modernization across Latin America.

What is the Buenos Aires grid program?

Intended to strengthen the grid in the greater Buenos Aires region, the program has attracted a lot of attention; it has been subscribed to projects that are about twice the desired capacity.

What is the Buenos Aires metropolitan area (Amba) tender?

The heart of this tender, which also comes officially as AlmaGBA, is a strategic desire to stabilize the grid of the Buenos Aires Metropolitan Area (AMBA). Similar to most Latin American cities, AMBA is under the pressure of expanding energy demand, the deterioration of infrastructure, and the frequency of extreme weather conditions.

Argentina's Energy Secretariat has issued a pivotal international call for proposals aimed at integrating 500 megawatts (MW) of battery energy ...

As Argentina's capital city accelerates its renewable energy transition, Buenos Aires has made strategic moves to adopt advanced lithium battery storage systems.

The \$540 million investment in energy storage isn't just about keeping the lights on in Buenos Aires. It's a strategic bet on a more flexible, reliable, and sustainable energy future for ...

Argentina's Energy Secretariat, part of the Ministry of Economy, has initiated an auction to secure 500 MW of battery energy storage capacity in the Metropolitan Area of Buenos Aires (AMBA).

Argentina has opened a \$500 million battery storage tender aimed at adding 500 MW of new energy storage
