Are data center rack enclosures a commodity product?

At one time, data center rack enclosures and related equipment were considered commodity products—simply a platform to stack equipment, with more enclosures purchased as servers and rackmount equipment were added to the IT inventory.

What types of rack enclosures are available?

From IT racks to network racks to data racks and more, we have the solution for your application. Premium rack enclosures for advanced applications, including real device testing racks, RF/EMI shielded racks, smart server racks, pre-customized data center racks, and more.

How much does a Data Center setup cost?

Small data center setup (10-20 racks): \$50,000 to \$100,000. Medium data center setup (50-100 racks): \$200,000 to \$500,000. Large enterprise data center setup (200+ racks): \$1,000,000+. Digital Infotech Solutions offers tailored rack and stack services to enterprises in the U.S.

What is a rack enclosure?

In reality, rack enclosures are highly engineered equipment that can enhance the efficiency of supported equipment, and improve the productivity of data center personnel. Rack systems are strategic assets that play a key role in system uptime and data center availability and reliability.
