What is the bulk energy storage program?

The Bulk Energy Storage Program will use an innovative Index Storage Credit incentive, as established in the Order and modeled in part on the Renewable Energy Certificate (REC) and Offshore Wind Renewable Energy Credit (OREC) utilized in other NYSERDA programs.

What is a bulk energy storage implementation plan?

The Implementation Plan provides an operating framework for the program, with additional details to be provided in Bulk Energy Storage program solicitations.

What is New York State's first bulk energy storage competitive solicitation?

Categories: Storage, Energy Policy, Energy Storage, Batteries On July 28, 2025, Governor Kathy Hochul announced the launch of New York State's first bulk energy storage competitive solicitation.

Can bulk energy storage help the electrical grid?

NYSERDA also proposes to evaluate the various non-price benefits that bulk energy storage projects can provide to the electrical grid. These may include evidence of the potential to support peaker plant displacement and the capability to reduce curtailment and otherwise support renewables integration.

NYSERDA is providing incentives that can help accelerate deployment of bulk energy storage projects that provide wholesale market energy, ancillary services, and/or capacity services.

With the increasing penetration of renewable energy resources, the demand for energy storage resources that can provide capacity--the ability to provide dispatchable energy--has ...

Defining "bulk storage" as projects with at least 5MW output, the procurement is intended to significantly contribute to achieving New York's 6GW ...

Con Edison and Orange & Rockland are seeking bids for the scheduling and dispatch rights for bulk-connected energy storage projects.

Per the Storage Orders, CHGE seeks Offers to procure the dispatch rights of at least 10 MWs⁷ of qualified energy storage systems.

This initiative will help meet energy storage goals and complement the growing use of intermittent technologies on the transmission and distribution systems. The RFP will be conducted in two phases.
