What is a lithium ion battery charging and storage cabinet?

The new Justrite lithium ion battery charging and storage cabinet provides the ideal storage solution. Featuring ChargeGuard(TM) technology, this new cabinet was designed especially for minimizing the risks of battery fires and thermal runaway that arise when storing and charging lithium ion batteries in the workplace.

What is a lithium-ion battery charging Safety Cabinet?

Justrite's Lithium-Ion battery Charging Safety Cabinet is engineered to charge and store lithium batteries safely. Made with a proprietary 9-layer ChargeGuard(TM) system that helps minimize potential losses from fire, smoke, and explosions caused by Lithium batteries. Shop Now

What makes a good battery charging cabinet?

A good battery charging cabinet doubles as a charging station. It must include: Factory-installed socket strips. This minimizes the need for retrofitting and ensures safety from the outset. Ensure your cabinet has been independently tested for both internal and external fire resistance. Look for models offering:

Are battery charging cabinets fire rated?

Most traditional cabinets are fire-rated only for external fire resistance. Lithium-ion battery incidents often originate internally, requiring fireproof battery charging cabinets that can withstand internal fires for at least 90 minutes. Cabinets should be tested and certified to standards like SS-EN-1363-1 for internal fire resistance.

Shop robust lithium-ion battery cabinets designed for maximum safety and durability. Ensure compliance with OSHA regulations and protect your workplace from potential hazards. All products made in USA.

Top 10 battery cabinets for safe storage and efficient charging in 2026, featuring advanced safety, smart features, and reliable energy management.

Lithium-ion battery fires in the workplace are dangerous and can happen without warning, especially while batteries charge. This side-by-side comparison video details two lithium-ion...

With space for up to 8 batteries and the ability to charge up to 4kWh, the cabinet supports high-volume operations. The power strip inside the cabinet allows for simultaneous charging, making it a ...
