Which wind turbine manufacturers dominate the world?

As the world accelerates its shift toward clean energy, the competition among wind turbine manufacturers is at an all-time high. Leading wind power turbine manufacturers like Vestas (Denmark), Siemens Gamesa (Spain), Goldwind (China), and GE Vernova (France) continue to dominate global markets with massive installed bases and expanding order books.

Who makes wind turbines?

German firms such as ENERCON and Nordex, as well as China's Mingyang Smart Energy and Envision Energy, are also key players shaping the future of wind power. This ranking highlights the top 15 makers of wind turbines worldwide, according to their installed capacity as of October 2025. 1.

Who is the largest wind turbine manufacturer in China?

Goldwind is the largest wind turbine manufacturer in China and third in the world in terms of installed capacity. The Chinese manufacturer has installed more than 138 GW of wind energy around the world.

Who is the largest wind turbine manufacturer in 2025?

1. Top 15 Largest Wind Turbine Manufacturers in 2025 (according to installed capacity) 1.1. Vestas (Vestas Wind Systems A/S) Vestas Wind Systems A/S (Vestas) is the largest wind turbine manufacturer/supplier in the world with an installed capacity of more than 189 GW including 10 GW of offshore wind turbines.

Explore Energy Storage Systems (ESS), critical factors in choosing manufacturers, and top brands in the industry for a resilient energy future.

Energy storage cabinets are specialized systems designed to store excess energy for later use. They function by capturing energy produced from ...

Energy Storage Technology Provider Rankings. In 2019, among new operational electrochemical energy storage projects in China, the top 10 providers in terms of installed capacity were CATL, Higeer ...

Let's face it--the energy storage industry is hotter than a lithium-ion battery in a heatwave. With the global market projected to hit \$33 billion annually [1], manufacturers are racing to ...
