-----

100kW/215kWh LFP energy storage system, and a generator set. The hybrid energy storage system adopts integrated design, the battery and the MPS series hybrid inverter, which contains PCS ...

With the microgrid, the synchronization capability between the generator and the energy storage Power Conversion System (PCS) ensures seamless and uninterrupted operation.

These offer significant advantages in improving energy storage product performance, reducing costs, and extending service life, laying a solid technical foundation for our company's ...

Configured with a rack-mounted modular PCS, it supports parallel connection of multiple machines and has good scalability; the number of PCS modules and the total battery power can be selected ...

All-in-One integrated system design inside the Cabinet to fulfill Commercial & Industrial scenarios.

Power your independence with our high-capacity, all-in-one energy storage solution. Engineered for commercial, industrial, and community microgrids, this unit delivers resilience, intelligence, and ...

Designed for demanding industrial applications, off-grid setups, and solar-powered infrastructures, it combines a 100kW hybrid inverter, 207kWh of scalable LiFePO4 batteries, and intelligent EMS in a ...

Unleash peak performance and unparalleled security with our Air-cooled Energy Storage System. This modular powerhouse seamlessly integrates AI-powered intelligence for optimized operation and ...
