Are bifacial solar panels exempt from tariffs?

Bifacial solar panels, which are predominantly used in commercial, industrial, and utility-scale solar power projects, were previously exempt from tariffs. With the removal of this exemption, the cost of imported bifacial solar panels, typically ranging from \$0.10-0.25 per watt, will increase by \$0.015 to \$0.0375 per watt.

Will bifacial solar panels lose exemption?

In addition to bifacial panels losing their exemption, the Biden Administration said it will raise the tariff-rate quota (TRQ) of silicon solar cells by 7.5 GW, if needed.

Did Biden remove the bifacial solar panel exemption?

The Biden Administration has released a fact sheet detailing multiple solar panel related policies, including the removal of the bifacial solar panel exemption. This exemption previously allowed certain solar panels to bypass the Trump-era 15% tariff.

Did Biden put bifacial solar panels back under Sec 201 tariffs?

The Biden Administration today put imported bifacial solar panels back under Sec. 201 tariffs, after the specialty solar panels enjoyed a two-year exemption from extra duties first initiated by President Biden in 2022.

On May 16, 2024, the White House announced a new measure, declaring the immediate cancellation of the Section 201 exemption under the Trade Act of 1974 for bifacial PV modules from affordable tariffs.

CSPV bifacial modules are currently exempt from the Section 201 tariff. Since most modules today are bifacial, the Section 201 tariff does not cover most module ...

It is believed that business will eventually shift from importing their solar cells from overseas to manufacturing them in the US. Along with the tariff increase, the removal of the ...

The Office of the President has turned its focus to solar panels, announcing the removal of the bifacial solar panel Section 301 tariff exclusion and addressing issues of ...

Reports indicate the Biden Administration will end the exemption-- leading to double-digit tariffs on bifacial panels, which account for 98% of all imported panels.
