Should community solar programs include consumer protections?

It is important that community solar programs incorporate key consumer protections to ensure subscribers receive strong benefits. Community solar programs designed for low-income households all require subscribers to achieve energy savings and often include other key consumer protections.

Is community solar a good option?

Community solar can be a great option for people who are unable to install solar panels on their roofs because they are renters, can't afford solar, or because their roofs or electrical systems aren't suited to solar. Community solar is rapidly growing across the country.

How many energy storage units can be connected together?

Stackable and lightweight, installers can effortlessly connect up to four units together for additional energy storage. Available in three sizes including 9 kWh, 13.5 kWh, and 18 kWh to meet an installation company's growing customer energy demands. Operating modes: back-up mode, self-use mode, time-of-use mode and custom modes
