How much do built-in cabinets cost?

On average, built-in cabinets cost \$5,500 but can range from \$1,000 to \$6,000, depending on the size, type, and material. Built-in cabinets are a great way to customize your space--especially if your room has odd angles or varying ceiling heights. With built-in cabinets, the possibilities for customization are endless, but they'll come at a cost.

How much does MDF cost for built-in cabinets?

For MDF built-in cabinets, you can expect to pay \$15 to \$60 per sheet. Medium-density fiberboard (MDF) is a durable and affordable engineered wood. It's a popular choice for built-in cabinetry because it's easy to work with, versatile, and fire-resistant. You'll pay between \$12 and \$120 per sheet for plywood built-in cabinetry.

Do built-in cabinets add value?

Yes, built-in cabinets can add value to your home if they are finely crafted with high-quality wood and accessories and maintained correctly. Custom built-in cabinets can also increase your return on investment when selling. Built-ins are a popular design feature in living and dining rooms--especially in homes with minimal storage options.

How much do birch cabinets cost?

You can expect to pay between \$7 and \$10 per board foot for birch built-ins. Birch built-ins are very durable and versatile. They are also very chic, with most coloration in light brown or golden honey tones. You'll pay \$12 to \$15 per board foot for walnut built-in cabinets.
