-----

Data centre infrastructure companies are the backbone providers of the mechanical, electrical, lighting, and monitoring systems that keep facilities running 24/7. They ...

In addition, EcoStruxure Rack Solutions incorporate detailed rack configurations and frameworks designed to accelerate High Performance Computing (HPC) and AI data center ...

With EPC, data center developers lock in costs upfront, enabling confident capital planning and reducing the risk of budget blowouts. An ...

By moving from AC directly to 800 V DC at the rack level, and then stepping down to 12.5 V at the board, EPC's GaN-based solution eliminates unnecessary conversion stages ...

These offerings provide fast and easy implementation, through interoperable systems: precision cooling, UPS, power distribution/conditioning, management software and racks.

In addition, EcoStruxure Rack Solutions incorporate detailed rack configurations and frameworks designed to accelerate High Performance ...

Design GaN-based DC/DC converters for your data center applications to improve power usage efficiency & see why EPC GaN products are the best in the market.

By moving from AC directly to 800 V DC at the rack level, and then stepping down to 12.5 V at the board, EPC's GaN-based solution eliminates unnecessary conversion stages and enables ...
