How do I determine the duration of a warranty?

(3) Duration of the warranty. The time period or duration of the warranty must be clearly specified and shall be established after consideration of such factors as (i) the estimated useful life of the item, (ii) the nature of the item including storage or shelf-life, and (iii) trade practice.

When do I need a warranty?

When a warranty for the entire item is not advisable, a warranty may be required for a particular aspect of the item that may require special protection (e.g., installation, components, accessories, subassemblies, preservation, packaging, and packing, etc.).

What are 46.706 warranty terms & conditions?

46.706 Warranty terms and conditions. 46.706 Warranty terms and conditions. 46.706 Warranty terms and conditions. (a) To facilitate the pricing and enforcement of warranties, the contracting officer shall ensure that warranties clearly state the- (1) Exact nature of the item and its components and characteristics that the contractor warrants;

Is a contractor's trade practice in warranty marking acceptable?

(ii) For commercial products (see 46.709), the contractor's trade practice in warranty marking is acceptable if sufficient information is presented for supply personnel and users to identify warranted supplies. (6) Consistency.
