Who is the Egyptian company for engineering and Metal Industries?

The Egyptian Company for Engineering and Metal Industries is a modern company in the field of aluminum extrusion in Egypt that uses the latest technology in manufacturing equipment and quality control. It was established in 2018 and the actual production started at...

Will IFC support Egypt's first utility-scale battery energy storage system?

Cairo, Egypt, June 15, 2025 - IFC today announced an investment to support Egypt's first utility-scale battery energy storage system (BESS), deepening its partnership with AMEA Power, a leading renewable energy developer in Africa, the Middle East, and Central Asia, and the Government of Egypt to advance the country's clean energy ambitions.

What is Egypt's energy industry?

The main sectors in this industry are oil, natural gas, hydro-power, and solar and wind power. Oil dominates Egypt's energy industry, with the country producing as much as 0.9 million barrels of oil each day. The proven oil reserves on which Egypt sits are among the largest globally, estimated to be 3.7 billion barrels.

Which solar projects are being built in Egypt?

The first project involves a 1 GW solar plant with a 600 MWh BESS in the Benban area. The second project is a 300 MWh BESS at the site of Amea Power's 500 MW Abydos solar array, which is currently under construction. Both projects are in Egypt's Aswan governorate.

Earlier this year, state-owned utility Egyptian Electricity Holding Co. held an expressions-of-interest tender for the design, construction and operation ...

AMEA Power, a renewable energy developer headquartered in Dubai in the United Arab Emirates (UAE), in August announced a 300-MWh battery energy storage system (BESS) had ...

"Meeting Egypt's rising energy demand - especially in the summer - requires bold solutions, and we are proud to deepen our collaboration with a ready-to-scale partner like AMEA ...

EIC established the country's first and largest battery manufacturing site in line with Egypt's industrial strategy. The factory was inaugurated by President Gamal Abdel Nasser.

AMEA Power is building Egypt's first battery energy storage systems to boost grid stability and increase the
