The three-phase stacked all-in-one unit is a residential energy storage system that combines intelligent switching, a sleek design, high-efficiency power generation, and a wide voltage range.

A revolutionary AI-powered solar power storage system for home, integrating a Solar Inverter, EV DC Charger, Battery PCS, Battery Pack, Backup, and EMS into one powerful unit.

Featuring lithium-ion batteries, integrated thermal management, and smart BMS technology, these cabinets are perfect for grid-tied, off-grid, and microgrid ...

Safety designs such as water and electricity separation, three-level fire protection + explosion venting + exhaust, liquid cooling + dehumidification design, all ensure the safety of the energy storage ...

Discover our high-efficiency, modular battery systems with zero capacity loss and rapid multi-cabinet response. Ideal for industrial, commercial, and emergency ...

Our energy storage cabinet, evolved through four generations of R& D since 2009, is built to address diverse industrial and commercial energy demands. It proficiently handles peak shaving, virtual ...

Microgrids using solar energy and LFP battery storage are an effective solution for rural or remote areas. These systems store solar power in LFP batteries for use during the night or cloudy days.

The HighJoule 10kW Integrated Three-Phase Stackable Home Solar Storage System includes comprehensive safety features for residential installations in the UK. It is equipped with a multi-layer ...
