How big is the Electronic Manufacturing Services (EMS) market?

According to the research report by Reports Insights, the Electronic Manufacturing Services (EMS) Market is expected to grow at a CAGR of 6.9% from 2023 to 2030, reaching USD 878.02 Million by 2030. In this article, we have summarized the top 20 best EMS companies in Europe. What is Electronic Manufacturing Service (EMS)?

What is Electronic Manufacturing Service (EMS)?

EMS, the abbreviation of Electronic manufacturing services (EMS), is a kind of manufacturing services including design, assembly, manufacturing and testing provided by OEMs.

What services does an EMS company provide?

Generally, EMS companies provide a range of services involving PCB design and assembly, surface mount technology (SMT) assembly, cable and harness assembly, final assembly, testing, and quality control. Moreover, some value-added services can also be included if customers require, such as product customization, packaging, and logistics support.

Who is KATEK EMS?

As one of Germany's leading electronics service providers, KATEK is a leading EMS provider specialising in the development and manufacture of electronics assemblies and systems. It has branches in Memmingen, Grassau, and Mauerstetten. Its Leipzig location also provides EMS services to the automotive, telecommunications and healthcare industries.

The Electronic Manufacturing Services (EMS) Market is expected to grow at a CAGR of 6.9% from 2023 to 2030, reaching USD 878.02 Million by 2030. In this article, we have summarized ...

An Outdoor Photovoltaic Energy Cabinet is a fully integrated, weatherproof power solution combining solar generation, lithium battery storage, inverter, and EMS in a single cabinet.

They transform solar-sourced DC into AC and store unused energy in high-performance battery packs, providing clean, renewable backup energy to mission-critical telecom equipment.

These examples prove that solar powered emergency call boxes are not obsolete -- they are evolving to meet the modern demands of safety, IT integration, and sustainability.
