Comprised of Tier one A+ LFP Cell with over 6000 cycles and a service life of over 10 years. Optional PV charging module, of-grid switching module, inverter, STS and other accessories are available for ...

The technology enables charging the batteries of electric vehicles and transferring the stored energy back to the stationary storage system in the building or to the grid when needed.

A logistics hub in Poland, for instance, deployed 500kWh modular cabinets to reduce peak demand charges, saving over EUR30,000 annually. These systems integrate ...

A logistics hub in Poland, for instance, deployed 500kWh modular cabinets to reduce peak demand charges, saving over EUR30,000 annually. These systems integrate seamlessly with existing ...

Regional adoption will likely broaden - we can expect southern Europe to deploy more off-grid systems in rural areas, central Europe to attach batteries to most solar installs, and northern ...

Regional adoption will likely broaden - we can expect southern Europe to deploy more off-grid systems in rural areas, central Europe to attach ...

With SigenStor DC-coupled charging module, you can harness the power of the sun and directly charge your EV with clean solar energy. Moreover, it will allow you to tap into the power of ...
