How can the western area Power Administration support energy storage project financing?

The Western Area Power Administration is a good example of how one of these groups can support energy storage project financing of large projects. Through an infrastructure financing program aimed at expanding and modernizing the electric grid, WAPA's Transmission Infrastructure Program (TIP) can make loans to project.

Do you finance solar & storage projects?

We finance both solar plus storage projects as well as standalone storage projects. We know the asset class and can provide value with long-term, project-level debt. Our solar lending team members are experts in utility-scale and C&I solar, community solar and energy storage project financing nationwide.

Are energy storage projects different than power industry project finance?

Most groups involved with project development usually agree that energy storage projects are not necessarily different than a typical power industry project finance transaction, especially with regards to risk allocation.

What is the energy storage Finance Summit?

The Summit was the first Energy Storage Finance Advisory Committee Meeting for a U.S. Department of Energy sponsored study to issues and challenges surrounding project and portfolio valuation.
