Why should you choose energy storage cabinets?

This ensures that energy storage cabinets can provide a complete solution in emergency situations such as fires. To accommodate different climates, we provide professional recommendations based on customer usage scenarios and requirements.

What is a server rack cabinet?

AZE's 48U 800mmWide x1200mmDeep server rack cabinet shall consist of welded and assembled steel frame construction, supporting computer server and data storage equipment by providing additional space at the rear for cable management and front-to-rear airflow solutions. Standard enclosure for low to medium density server and networking applications.

Do energy storage cabinets need to be painted?

This ensures that energy storage cabinets maintain excellent appearance and performance, as well as resisting corrosion and UV radiation. We place particular emphasis on comprehensive pre-paint processes, including degreasing, cleaning and neutralisation, to ensure excellent paint adhesion and quality.
