What is an IP55 outdoor cabinet?

The second "5" indicates that the body can withstand the effects of water jets coming from any direction. This means that an IP55 outdoor cabinet can operate safely during rain, splashes, or routine external washing, making it suitable for most outdoor telecom and electrical installations.

What materials are available for IP55 outdoor electrical enclosures?

Our IP55 outdoor electrical enclosure is available in special materials including aluminum alloys, stainless steel, galvanized steel, and carbon steel, to meet your application requirements. AZE offers a wide range of IP55 outdoor telecom enclosure which has been independently tested and certified.

What is an IP55 enclosure?

IP55 enclosures offer a balanced level of protection for outdoor telecom, electrical, and industrial equipment, providing reliable performance across most climate zones. When properly selected and equipped, they ensure long-term operational stability even in demanding conditions.

Are IP55 enclosures suitable for street use?

Yes, IP55 enclosures are appropriate for street use. They are designed to handle rain, splashes, wind-driven moisture, and general outdoor exposure within their declared operating limits.
