Georgia Power is building 765 MW of battery storage in four Georgia counties, boosting grid reliability and increasing renewable energy.

Georgia Power announced today that construction is underway on 765-megawatts (MW) of new battery energy storage systems (BESS) ...

ts, battery storage systems, and additional solar energy capacity. Georgia Power has also reconsidered plans to retire certain coal plants and extended operation data center operators an exemption from the ...

ATLANTA - Construction is underway on battery energy storage systems (BESS) at four locations across the state, Georgia Power officials announced Wednesday.

Georgia Power announced that construction is underway on 765 megawatts (MW) of new battery energy storage systems (BESS) strategically located across Georgia in Bibb, Lowndes, ...

In total, 765 megawatts (MW) worth of new BESS will be strategically located across Georgia in Bibb, Lowndes, Floyd, and Cherokee counties.

From coal plant conversions to solar co-location, Georgia Power's battery strategy highlights the evolving role of storage in utility-scale energy planning.

Georgia Power, the state's largest utility, has revealed details about where it will install its next set of massive batteries, part of its plan to meet a wave of electricity demand the company...
