How did Hamburger Energiewerke get funding?

Hamburger Energiewerke received funding from BAFA as part of the Model Project Heat Network Systems 4.0 (Module II) program. The Hamburg Investment and Development Bank (IFB Hamburg) also provided funding for the HEnW project in keeping with the "Companies for Resource Conservation" funding guidelines.

How does Hamburger Energiewerke work?

It works a bit like a thermos, and the heat is released into Hamburger Energiewerke's over 860-kilometer-long city network when needed. The project received funding from the German Ministry for Economic Affairs and Climate Action (BMWK) and the Hamburg Investment and Development Bank (IFB).

What is Germany's grid booster energy storage project?

The project was approved by regulators in March 2024 as part of Germany's Network Development Plan (NEP) 2023-2037/45. Grid booster energy storage projects have been launched by three out of Germany's four TSOs, and are placed at critical grid nodes to stabilise the grid and reduce operating costs.

How will Aurubis and Hamburger Energiewerke contribute to the heat transition?

Aurubis and Hamburger Energiewerke are actively shaping the heat transition with the current project and making an important contribution to meeting Hamburg's climate targets. The heat supply is scheduled to come online in the 2024/25 heating period.

The tender is non-discriminatory, Amprion said, and will cover the construction and operation of the energy storage projects, which will be deployed at five substations and total 250MW ...

Amprion and E.ON are launching the "world's first decentralised" non-wires alternative energy storage project in Germany, they claimed.

Return has acquired a majority stake in Hamburg-based J& P Batterie Projekte GmbH with a EUR50 mln investment and commitment. The acquisition is the next step in Return's ...

Building on these developments, this study investigates how incremental distribution network (IDN) investors can optimize PV-ES project investments within coupled ...
