-----  
What is a power conditioning & distribution cabinet?

Power conditioning and distribution cabinet that offers the benefits of a custom-tailored system, with the convenience and cost savings of a pre-packaged, factory-tested system.

Where are magnadc programmable DC power supplies made?

MagnaDC programmable DC power supplies are designed and manufactured at Magna-Power's 73,500 sq-ft vertically integrated USA manufacturing facility in Flemington, New Jersey. From raw materials to the completed product, Magna-Power has insourced nearly the entire production process to maintain complete control of quality, cost, and build-time.

What interfaces are available for magnadc power supplies?

MagnaDC power supplies include RS232 communication interface standard with optional LXI TCP/IP Ethernet (+LXI) and IEEE-488 GPIB (+GPIB) options. SCPI Command Listing Using the rear User 37-pin I/O connector, the MagnaDC power supplies can be completely controlled and monitored using external signals.

What is a magnadc programmable DC power supply?

All MagnaDC programmable DC power supplies utilize high-frequency IGBT- and MOSFET-based power processing in a current-fed topology. This topology adds an additional stage over the conventional voltage-fed topology for enhanced control and system protection, ensuring that even under a fault condition, the power supply will self-protect.

Moore Power Supply Cabinets are available for either Ground Mounts or Pad Mounts. Design features include stainless steel welds and hinges, upper shelves for power supply storage and lower sliding ...

The Liebert PPC second generation distribution cabinet offers the benefits of a custom-tailored power system, with the convenience and cost savings of a pre-packaged, factory-tested unit.

Product Name C& I Energy Storage System System Power 50KW / 100KW / 150KW / 250KW Output Voltage 380 / 400V Three Phase Battery Storage 200KWH / 300KWH / 500KWH Solar Panels 600W ...
