China's leading BESS company, dedicated to developing the best battery energy storage system and improve the efficiency of renewable energy storage.

What is a containerized Bess system?

At the grid and utility level, containerized BESS deployments supply hundreds of megawatt-hours of capacity, supporting peak shaving, renewable firming, black start capability, and wholesale market participation. These systems are critical for utilities, data centers, and industry.

What is a whole-house solar battery & a Bess unit?

For residential customers, whole-house solar batteries and small-scale BESS units provide self-consumption, outage protection, and participation in emerging virtual power plants (VPPs). These products often include lithium-ion or lithium iron phosphate (LFP) chemistries, integrated inverters, and smart monitoring systems for simple deployment.
