Electrical cabinets for energy conversion and storage: Energy conversion and storage unit that can be interconnected with external energy sources (PV, grid, generator).

Electrical cabinets for energy conversion and storage: Energy conversion and storage unit that can be interconnected with external energy sources ...

ECO-E107WS integrates a 107.5 kWh LFP battery, hybrid inverter, HVAC, and advanced safety systems in a single all-in-one cabinet. With flexible expansion, modular design, and multiple ...

Equipped with a robust 15kW hybrid inverter and 35kWh rack-mounted lithium-ion batteries, the system is seamlessly housed in an IP55-rated cabinet for enhanced protection against water ...

Equipped with a robust 15kW hybrid inverter and 35kWh rack-mounted lithium-ion batteries, the system is seamlessly housed in an IP55-rated cabinet for enhanced protection against water and dust, ...

Hybrid inverter + lithium battery for energy storage + MPPT + diesel generator (optional). Maximum support three sets of integrated cabinets in parallel. Intelligent fire prevention ...

Designed for medium-scale applications, it offers a reliable and efficient solution for storing solar energy and supplying consistent power, even in fluctuating grid conditions.

The hybrid solar panel allows to produce electricity and sanitary hot water at the same time. Thanks to his efficiency, you can take advantage of solar radiation.
