What is energy in Monaco?

Energy in Monaco describes energy production, consumption and importation in the Principality of Monaco. Monaco has no domestic sources of fossil fuels and relies entirely on imports of electricity, gas and fuels from France.

Who owns the electricity in Monaco?

Monaco's sole national power company is Société Monégasque de l'Électricité et du Gaz (SMEG, Monegasque Electricity and Gas Company), which operates the country's electric and gas grid and provides related services. SMEG is 60% owned by Engie, 20% by the State of Monaco, 15% by EDF, and the rest by private investors.

Does Monaco use fossil fuels?

Monaco has no domestic sources of fossil fuels and relies entirely on imports of electricity, gas and fuels from France. Monaco's sole national power company is Société Monégasque de l'Électricité et du Gaz (SMEG, Monegasque Electricity and Gas Company), which operates the country's electric and gas grid and provides related services.

How much electricity does France use?

Instead the principality includes its emissions in France's statistics. In 2018, the country used around 536,000 MWh of electricity, of which a majority of it was used by tertiary services. The first and later sole electric plant was a gas-fired power plant built by the casino operator SBM at the base of Fort Antoine in Monaco-Ville.

Energy in Monaco describes energy production, consumption and importation in the Principality of Monaco. Monaco has no domestic sources of fossil fuels and relies entirely on imports of ...

This article explores the cost factors, industry trends, and practical insights for businesses and homeowners interested in energy storage solutions. Learn how Monaco balances efficiency and ...
