In April this year, Invinity Energy Systems secured a 1.5MWh order for its vanadium redox flow battery (VRFB) from STS Group, for an installation at solar-plus-storage project in central ...

Hungary switches on its largest battery energy storage system at Dunamenti gas power plant to support grid flexibility near Budapest.

In April this year, Invinity Energy Systems secured a 1.5MWh order for its vanadium redox flow battery (VRFB) from STS Group, for an installation at solar-plus-storage project in central Hungary.

In April this year, Invinity Energy Systems secured a 1.5MWh order for its vanadium redox flow battery (VRFB) from STS Group, for an installation at solar-plus-storage project in ...

Vanadis Energy delivers advanced vanadium solid-state batteries offering superior safety, long life, and scalable performance for next-generation ...

The energy storage system will be installed alongside a large-scale solar PV array in western Hungary as part of a solar-plus-storage project.

The London-based manufacturer of utility-grade energy storage systems said the batteries will be utilised for two separate solar plus storage projects in Hungary.

Ideona Group, and their leading renewable energy developer partner, STS Group, were looking to use a vanadium flow battery system that was capable of providing longer duration energy ...
