The MG100K is a high-performance all-in-one energy storage system with 100kW output and 207kWh capacity, ideal for microgrids, industrial backup, and solar integration. Featuring LiFePO4 batteries, ...

The ESS-GRID Cabinet series are outdoor battery cabinets for small-scale commercial and industrial energy storage, with four different capacity options based on different cell compositions, 200kWh, ...

The energy storage cabinet consists of 10 51.2V 100AH battery packs, and the 512V 100AH DC source supplies power to the PCS; Three-phase hybrid ...

It has the characteristics of high energy density, high charging and discharging power, and long cycle life.

It supports grid-tied, off-grid, and hybrid solar systems, can be used with diesel generators. This commercial energy storage system comes in multiple capacity options: 200kWh / 215kWh / 225kWh / ...

The energy storage cabinet consists of 10 51.2V 100AH battery packs, and the 512V 100AH DC source supplies power to the PCS; Three-phase hybrid inverter, 100% unbalanced output per phase, ...

It has the characteristics of high energy density, high charging and discharging power, and long cycle life.

Equipped with integration controls for solar PV and generators. Backup power-ready and designed to support onsite load during grid outages. Virtual power plant-ready with integrated connectivity for ...
