-----

In the event of a grid failure or power outage, the energy stored in our solar battery cabinets can be used as an emergency backup power source to ensure ...

From hybrid solar + propane SOFC systems to multi-cabinet methanol HT-PEM backup platforms, MOBICELL cabinets ensure dependable, diesel-free power. Every system is remotely monitored ...

Whether used as part of a full solar system or as a battery retrofit, our storage cabinets deliver resilience from day one. For projects where failure is not an option, stability begins inside the ...

With LFP battery technology, advanced EMS and PCS, it enables real-time monitoring, smart schedule, and seamless integration with solar PV, EV ...

We specialize in scalable, 480 VAC storage systems ranging from 42 kWh up to 360 kWh, offering reliable backup power, and a foundation for robust microgrid capabilities. Explore the configurations ...

The MG100K is a high-performance all-in-one energy storage system with 100kW output and 207kWh capacity, ideal for microgrids, industrial backup, and solar integration. Featuring LiFePO4 batteries, ...

Equipped with integration controls for solar PV and generators. Backup power-ready and designed to support onsite load during grid outages. Virtual power plant-ready with integrated connectivity for ...

With LFP battery technology, advanced EMS and PCS, it enables real-time monitoring, smart schedule, and seamless integration with solar PV, EV charging, and backup power. Ideal for peak shaving, ...
