In a pioneering move for state-owned utilities in the Balkans, Montenegro's largest power utility, EPCG, is planning to launch a large-scale, battery energy storage procurement exercise by the end of 2024.

Elektroprivreda Crne Gore, owned by the Government of Montenegro, started the preparations to install battery energy storage systems. It is a pioneering move among state-owned ...

The batteries will be installed at the site of the metal processing company EPCG Zeljezara Niksic. The tender covers the full project scope - ...

This scenario sets the stage for a groundbreaking initiative by the state-owned utility, Elektroprivreda Crne Gore (EPCG), which is spearheading the deployment of advanced battery ...

Summary: Explore how advanced energy storage systems are transforming Podgorica's renewable energy landscape. Discover practical solutions for solar/wind integration, cost-saving strategies, and ...

Montenegro's state-owned power company, Elektroprivreda Crne Gore (EPCG), is pioneering the installation of battery energy storage systems (BESS) to enhance energy system ...

This project aligns with global trends in sustainable energy development and reducing carbon emissions. By integrating battery storage systems, EPCG aims to reduce electricity ...

The new 240 MWh battery installations will allow EPCG to shift energy during peak and off-peak hours, reduce grid congestion, and provide essential ancillary services such as frequency ...
