---

The first units of the "BluePlanet" liquid-cooled outdoor storage cabinet are en route to Nairobi and Kisumu, Kenya, introducing this state-of-the-art technology to the African ...

Discover how liquid-cooled energy storage systems are transforming Nairobi's renewable energy landscape with high efficiency and reliability.

Designed for harsh environments and seamless integration, this IP54-rated solution features a 105KW bi-directional PCS, optional air- or liquid-cooled thermal management, and parallel ...

This system is designed as a high-performance outdoor cabinet energy storage unit, engineered for commercial applications where reliability and safety are critical.

The first units of the "BluePlanet" liquid-cooled outdoor storage cabinet are en route to Nairobi and Kisumu, Kenya, introducing this state-of-the ...

Designed for harsh environments and seamless integration, this IP54-rated solution features a 105KW bi-directional PCS, optional air- or liquid-cooled thermal management, and parallel operation ...

From solar farms to manufacturing plants, Nairobi's energy revolution demands smart storage solutions. Liquid-cooled cabinets offer the perfect blend of efficiency and reliability - the ...

"You know what's surprising?" says Peter Mbuthia of Kenya's Rural Electrification Authority. "These battery farms require 60% less maintenance than our old thermal plants. We're ...
