Where can I find the instruction manual for the batteries?

Inside the door there is a document pocket containing the instruction manual for the batteries. The sections can be fixed together to form a single cabinet. Where required, the cabinet is completed by a special compartment or switch/disconnector cubicle containing the protection equipment.

Does the IBC-LH have a battery cabinet?

In addition, the IBC-LH provides a single battery cabinet solution for 93PM UPS systems 200 kW and below. 93PM 400 kW UPS systems above 200 kW require at least two battery cabinets. The IBC-L and IBC-LH are housed in a single free-standing cabinet with safety shields behind the doors for hazardous voltage protection.

What is a DataSafe Xe Battery Cabinet?

DataSafe HX battery cabinet systems are factory pre-wired to minimize installation time. The cabinet design optimizes the overall footprint. DataSafe XE batteries, manufactured with Thin Plate Pure Lead (TPPL) technology, are specifically designed for shorter duration autonomies.

Which accumulator batteries are included in the cabinets covered by the technical specification?

The cabinets covered by the technical specification have been designed to contain the hermetic lead-acid electric accumulator batteries.

The UPS system shall be provided with a valve-regulated lead acid battery plant. The battery shall be fully charged per the manufacturer's instructions during startup and shall demonstrate the specified ...

Battery backup protection is provided by equipping the UPS system with multi external Battery Cabinets (EBC) containing Valve Regulated Lead Acid Battery (VRLA) batteries.
