For LiFePO4 this should be the other way around, yes?? As boost is CC and float CV, one wants CC to get to +/-90% SOC and CV to the rest. 90% SOC is lower voltage then 95% Where ...

DIY LiFePO4 Battery Banks Advanced user discussion on BMS/ Cell Configurations/ Temperature Regulation/ Cell Sources and more 1 2 3 ... 53 Next

Could someone please tell me what some lifepo4 "drop in" battery manufacturers mean when they call their batteries 12.8V batteries? I have seen this painted on the face of Power Queen, ...

I've looked at several places for a simple, easy to read at a glance "chart document" for LFP. I could not find anything comprehensive. I discovered an XLS Worksheet in my stored file and ...

I understand the reasons. A stock alternator directly connected to Lithium is a problem as the low internal resistance will cause high continuous currents and kill the alternator by heat. But ...

Hi guys, I was looking through the mobile-solarpower website, and on this page I found a battery voltage chart for LiFePO4 batteries. But I noticed it wasn't showing the exact voltage ...

Balancing LiFePO4 2S packs in Parallel (2S3P) + 4/0 cable to charge controller? solarpowerhour Feb 3, 2025 S

Assumptions: I understand LiFePO4 has a low internal resistance, so when you hook it up to an internally regulated alternator, the voltage differential from the battery and alternator divided ...
