SUNWODA's Outdoor Liquid Cooling Cabinet is built using innovative liquid cooling technology and is fully-integrated modular and compact energy storage system designed for ease of ...

Looking for a high-efficiency, scalable, and safe energy storage cabinet for commercial and industrial use? The GSL-CESS-125K232 is a next-generation ...

This integrated outdoor cabinet features lithium iron phosphate (LFP) batteries, modular PCS, EMS, power distribution, fire protection, and an advanced liquid cooling system that enhances thermal ...

Maximize power reliability & savings with our 125KW/261KWH Liquid-Cooled Battery Cabinet. Featuring superior cooling efficiency for extended 10-year lifespan, it enables critical equipment UPS protection ...

Preferred battery, first-line brand 280/314Ah LFP battery, the longest cycle life of 12000Cycle Variable frequency liquid cooling, new intelligent temperature control management, cell temperature ...

The liquid cooling battery cabinet is a distributed energy storage system for industrial and commercial applications. It can store electricity converted from solar, wind and other renewable energy sources.

The fluid absorbs heat directly from the cells and carries it away to a radiator or heat exchanger, where it is safely dissipated. This process allows for precise ...

This integrated outdoor cabinet features lithium iron phosphate (LFP) batteries, modular PCS, EMS, power distribution, fire protection, and an advanced liquid ...
