How big is the microgrid market?

Image &#169; Mordor Intelligence. Reuse requires attribution under CC BY 4.0. The Microgrid Market size is estimated at USD 20.54 billion in 2025, and is expected to reach USD 46.99 billion by 2030, at a CAGR of 17.85% during the forecast period (2025-2030).

How much is the global microgrid market worth in 2024?

The global microgrid market was valued at USD 22.9 billion in 2024. The market is expected to grow from USD 28.9 billion in 2025 to USD 140.7 billion in 2034, at a CAGR of 19.2%.

Why is the China microgrid market important?

The China microgrid market holds the largest market share in the region on account of rapid economic growth, industrialization and urbanization. This drives a surge in energy demand, leading to make microgrid a cost-effective and scalable solution to expand energy access across both remote and urban areas.

Why is the microgrid market growing?

The impressive growth trajectory of the Microgrid Market is driven by factors such as increasing emphasis on decarbonization, growing need for reliable and uninterrupted power supply, and the surging deployment of microgrids for rural electrification.

It gives a key overview of the microgrid market, detailing competitive possibilities, growth trends, and competition strategies. This report provides insight into the effects of global crises, ...

Overall, the outdoor energy storage cabinet market is positioned for substantial growth over the forecast period, supported by increasing energy storage requirements, technological innovations, and ...

GLASHAUS POWER - Wondering how much a modern energy storage charging cabinet costs? This comprehensive guide breaks down pricing factors, industry benchmarks, and emerging trends for ...

The 5 MW to 10 MW band, however, shows the fastest growth at 20.1% CAGR as utilities aggregate critical loads across multiple facilities. Modular component design allows ...

Microgrids in the 1-5 MW range dominate the market due to their suitability for commercial and industrial operations. Systems above 10 MW are expected to post the highest CAGR, supported by utility-scale ...
