Built at the Marseille-Fos Port, the marine geothermal power station Thassalia is the first in France, and even in Europe, to use the sea's thermal energy to supply linked buildings with power for heating and ...

Built at the Marseille-Fos Port, the marine geothermal power station Thassalia is the first in France, and even in Europe, to use the sea's thermal energy to supply linked buildings with ...

An intelligent solar tank that acts as a thermal battery: it stores free solar heat, learns household habits, and anticipates the weather to optimize comfort. With DUO, the house is now close to energy self ...

Marseille Solar Power System Marseille, France (latitude 43.3736 and longitude 5.3547) is an excellent location for solar photovoltaic (PV) power generation due to ...

With 42% of France's solar potential concentrated in Provence-Alpes-Côte d'Azur region, this coastal city is tackling renewable energy's needs. As Marseille positions itself as a Mediterranean ...

Located in southern France, Marseille Solar Farm has become a benchmark for utility-scale solar projects. With 120 megawatts of installed capacity, it powers approximately 50,000 households ...

We specialize in large-scale solar power generation, solar energy projects, industrial and commercial wind-solar hybrid systems, photovoltaic projects, photovoltaic products, solar ...

With 42% of France's solar potential concentrated in Provence-Alpes-Côte d'Azur region, this coastal city is tackling renewable energy's needs. As Marseille positions itself as a Mediterranean hub for clean ...
