Do I need a power plug adapter in Mexico?

Since Mexico uses the same power plugs as the U.S., Canada and most of North America, a travel power plug adapter isn't necessary for those travelers. However, when coming from a country with different plug types, you will need an adapter or else you can't physically plug your devices in.

What type of power plugs are used in Mexico?

In Mexico, power plugs and sockets (outlets) of type A and type B are used. The standard voltage is 127 V at a frequency of 60 Hz. For more information, select the country you live in at the top of this page. We don't sell power plug adapters. We refer you to Amazon, where you will find a great selection of travel adapters.

What type of power socket is used in Mexico?

The power sockets in Mexico are of type A and B. The standard voltage is 127 V at a frequency of 60 Hz. Check your need for a power plug (travel) adapter in Mexico.

What power plug & outlets do you need to travel to Mexico?

When planning a trip to Mexico, you need to know about Mexican power plug and outlets. When traveling to Mexico, it's important to know that the standard voltage supply is 127V, with a frequency of 60Hz. This is similar to the United States and Canada, which also both use 120V and 60Hz.

What type of plugs and sockets are used in Mexico? When you are going on a trip to Mexico, be sure to pack the appropriate travel plug adapter that fits the local sockets.
