What is IP55 rated fully closed rack system?

IP55 rated fully closed rack system provides safe space for IT equipments, which is noise cancelling, thermal insulated, and dust proof. Special double layer transparent front door design prevents condensate and offers status indication of IT equipments.

What is IP55 rated cooling?

Various types IP55 rated cooling solution can be placed to a location that is in the row or top or built-in the IT rack, removes heat and creates appropriate working temperature and humidity environment for critical IT equipments, while consumes lower energy benefiting from fully closed enclosure and hot/cold air management design.

What are the advantages of IP55 rated IT environment?

IP55 rated IT environment, excellent dust resistance and noise reduction capabilities, Anti-condensation design, ensure quiet, secure and stable operation. Smart 3in1 ( PIN / Finger / RFID ) Door access system, prevent unauthorized entry. Real-time equipment status monitoring and alarm, avoid delayed response.

What is IP55 rated 3 in 1 access control system?

IP55 rated 3 in 1 (fingerprint/pin/RFID) access control system effectively prevent unauthorized entry including invasion, water and dust. And supports user management and logging records. Camera system provides remote video monitoring to learn assets status in any time of situation.

With adjustable shelving and hot aisle isolation, Moonshot's Rack Skids offer flexibility and efficient cooling, ensuring optimal performance and equipment ...

Our solution is made of IP20 or IP55 Server cabinets with Micro Data Center functionality. It integrates an intelligent cooling system and includes UPS unit, ...

Premium 55U standard-depth rack enclosure comes fully assembled for housing, organizing and securing your IT servers and network equipment up to 37 in. deep.

IP Enclosures FC Range of IP55 19" Field Data Rack Cabinets are designed for heavy duty outdoor applications to house sensitive data network and electrical equipment in harsh environments.

The enclosures are provided in painted steel for "Indoor" applications, but can be manufactured in aluminium or stainless steel for severe "Outdoor" conditions. ...

Rack System IP55 rated fully closed rack system provides safe space for IT equipments, which is noise cancelling, thermal insulated, and dust proof. Special double layer transparent front door design ...

The IP55 19" rack is an 800 x 800 x 2000mm rack (42u) for optical fibre distribution. The rack is able to accommodate a range of distribution equipment including Splicing and Patching Shelves and ...

See how the aluminum extrusions from the IP55 rack make it ideal for rough industrial environments and how to improve the cable management in your racking system.
