Featuring 215kWh of LiFePO₄ storage and a 120kW PCS, this system is engineered for industrial parks and commercial complexes that require high-power energy management.

It is an All-in-One system comprises of PCS, batteries, BMS, EMS, MPPT, automatic fire control system and temperature control system. High-performance EV grade LiFePo₄ batteries ...

20-120kWh modular battery storage system for commercial, solar, and backup applications. Scalable, high-voltage solution with LiFePO₄ safety and BMS.

CyberPower 3-Phase Modular UPS Battery Cabinets are designed to accommodate several battery modules and can be configured into tower, side-by-side formations, or easily mounted in a rack.

Suitable for both on-grid and off-grid scenarios, our cabinets convert fluctuating energy prices into predictable costs, ensuring uninterrupted power supply for production lines even during grid outages, ...

Highly efficient, easy-to-deploy 120 kW, 400 V 3-phase UPS that brings best-in-class power protection and low total cost of ownership to edge, small and medium data centers, as well as to critical ...

DPA 60 cabinet is 20-60kW with internal batteries. DPA 120 cabinet is 20-120kW with external battery cabinets.

ABB's Conceptpower DPA 120 is conceived for data centers, a high efficiency modular UPS for high power applications - up to 600 kW
