Outdoor cabinet products use high-performance LFP cell, cycle life up to 8000 times. Products adopt an active balance solution, built-in cloud equipment, support remote maintenance and monitoring, and ...

Its design allows it to function efficiently in high-humidity environments (0-95% relative humidity, non-condensing) and within a wide temperature range (-20°C to 60°C), providing stable energy storage ...

Constant-temperature Battery Cabinet is made up by heating insulating sandwich plate, which has good heating insulation. To use high efficiency air-conditioning for battery refrigeration, to make sure ...

A high protection class battery cabinet that can be applied as standalone or extension of outdoor power system. The system integrates temperature control ...

Constant-temperature Battery Cabinet is made up by heating insulating sandwich plate, which has good heating insulation. To use high efficiency air-conditioning for battery refrigeration, to make sure ...

These outdoor battery enclosures, which come in all shapes and sizes, are designed to withstand extreme elements, climates and environments.

Explore StackRack's modular battery systems for residential, commercial, and utility-scale projects. Offering expert design, engineering and project management.

Equipped with the HindleHealth System, the Battery Cabinet will keep your battery at the ideal temperature in the most extreme of environments, giving you peace mind.
