-----

This fully integrated 100kW/215kWh system combines high-density battery storage with intelligent power management in a single, factory-assembled unit - delivering unmatched performance and reliability ...

Designed with an integrated architecture, this cabinet combines battery cells, BMU, BCU, EMS, PCS, fire suppression system, and PV MPPT controller into a single unit. It delivers a total battery energy ...

This industrial and commercial battery storage system is the ideal compact solution for your battery projects to work alongside solar PV, EV chargers and back up power requirements.

The MEG 100kW x 215kWh Cabinet is engineered as a modular energy storage building block, ideal for commercial facilities, microgrids, and community-scale projects.

Delivers 100 kW rated AC power and 232 kWh battery capacity for industrial and commercial energy needs. Designed with IP55 protection, transformer isolation, ...

Anern liquid cooling energy storage system cabinet is an energy storage device based on 100kw lithium battery. C& I energy storage system. High energy density, high charging and discharging power, long ...

Configured with a rack-mounted modular PCS, it supports parallel connection of multiple machines and has good scalability; the number of PCS modules and ...

Delivers 100 kW rated AC power and 232 kWh battery capacity for industrial and commercial energy needs. Designed with IP55 protection, transformer isolation, and real-time monitoring for enhanced ...
