Why do data centers need server racks?

As data centers have grown in complexity and size alongside the exponential expansion of the internet,server racks have also grown to become an indispensable component of network infrastructures.

Why do data centers need more compute and storage?

Today,more compute and storage are demanded from data centers,which face optimizing performance and cost against maintaining and protecting the servers inside. Data center staff must juggle multiple concerns,including network capacity,power redundancy,cooling efficiency,security and performance monitoring,and infrastructure scaling.

What is a rakworx Smart Modular data center?

RakworX's Prefabricated Smart Modular Data Center (MDC) is an energy-efficient,high-performance solution with natural air cooling for a PUE as low as 1.1. It's a fully contained,adaptable data center designed for rapid deployment,scalability,and growth. Our Small Chamber add-on optimizes airflow,enhancing cooling by containing cold air.
