Does Ottawa have a battery energy storage plan?

In 2025,the City of Ottawa established official plan and zoning provisions for battery energy storage usesin accordance with new Official Plan policy. BESS is an emerging technology using batteries and associated equipment to store excess energy from the electrical grid,which can then discharge energy in periods of high demand.

Is Ottawa looking at regulatory changes around battery energy storage facilities?

Ottawa is looking at regulatory changesaround these types of facilities. (Ross D. Franklin/The Associated Press) UPDATED: City councillors unanimously approved the new rules for battery energy storage facilities at their meeting on Feb. 12,2025.

Can a battery facility be built in Ottawa?

According to the new rules, companies looking to build a battery facility will have to show Ottawa Fire Services (OFS) that effective fire and safety risk management has been incorporated into the design. Companies will be required to install fire prevention and suppression systems, and provide OFS with site-specific training.

How many homes will a new energy storage system power?

Ford says,once complete,it will store enough energy to power nearly 400,000 homeswhen needed. Ontario Premier Doug Ford speaks at a news conference in Edwardsburgh/Cardinal,Ont.,on Nov. 12,2025. The province is breaking ground on a new battery energy storage system,called the largest in Canada. (Andrew Adlington/CTV News Ottawa)

The Project represents a cost-effective solution to add capacity, enhance flexible grid operations, and save greenhouse gas (GHG) emissions in Ontario by reducing the need for carbon-intensive power ...

"By enabling greater use of renewable energy, reducing emissions, stabilizing the grid, and empowering customers, battery storage is poised to help Ontario create a cleaner, more resilient, and equitable ...

The facility, called the Skyview 2 Battery Energy Storage System, will be built in the community of Edwardsburgh/Cardinal, approximately 80 ...

We specialize in large-scale energy storage systems, mobile power stations, distributed generation, microgrids, containerized energy storage, photovoltaic projects, photovoltaic products, solar industry ...

Although energy storage comes in different shapes and sizes, the lithium-ion Battery Energy Storage System ("BESS") is the fastest emerging technology in ...

Professor Schell was interviewed by Stu Mills of CBC Ottawa to explain the need for battery energy storage systems in the Ontario power grid, and particularly in Ottawa.

The facility, called the Skyview 2 Battery Energy Storage System, will be built in the community of Edwardsburgh/Cardinal, approximately 80 kilometres south of downtown ...

Professor Schell was interviewed by Stu Mills of CBC Ottawa to explain the need for battery energy storage systems in the Ontario power grid, ...
